

Integrating
your systems
for rapid
development

All EMP CMS products are load and corrosion tested in accordance with IEC standards.

Our products are manufactured from best in quality Zinc Aluminium Steel, Stainless Steel and Galvanized Steel, guaranteeing protection against corrosion.

Our Zinc Aluminium Steel sheets have been tested for corrosion resistance at the University of Moratuwa, Sri Lanka, complying with the IEC 61537 salt-water test.

All products undergo powder coating with Jotun products, an internationally acclaimed supplier of powder coatings based in Norway.

Cable Management Systems
& Sheet Metal Products

As the largest manufacturer of Cable Management Systems (CMS) in Sri Lanka, we have established a strategic business unit to oversee design and production of CMS and Sheet Metal Products.

We use ultra-modern and state-of-the-art CNC machinery to deliver completely integrated rigid support for electrical cables and server racks. Our team of highly qualified and skilled engineers work tirelessly to always exceed customer expectations, and increase speed to market.

Used in many large to mega-scale projects across the country and the region, EMP CMS are manufactured according to the highest international standards.

We have built a loyal customer base, not only for the quality of our products, but our expertise and services. We offer total cable management solutions that can be manufactured according to the exact construction drawings of each project. We use several types of steel protective methods for the product to better suit and adapt to specific environments.

This complements our expert R&D team's efforts at customizing and protecting cables and server racks against physical damage, corrosion, fire and radio frequency interference and accidental contact with cables. The complete solution is delivered to the site when required.

Products:

- Cable Trays
- Cable Trunking
- Floor Trunking
- Floor Boxes
- Cable Ladders
- 19" Server Racks
- All Types of Stainless Steel Products
- Enclosures (Indoor / Outdoor)
- Fire Doors / Fire Enclosures
- Generator Canopies
- Feeder Pillars
- IP 65 Enclosures
- Storage Rack Systems

All types of specified and customized metal work will also be taken on according to customer requirements.
